Mr. Jack Christoferson
CH2M
1500 - 114th Ave., S.E.
Bellevue, Washington 98004

Dear Jack:

Enclosed are a number of articles regarding PCBs (including PCB-contaminated sludge), recycling sludge on farmlands and public participation in regional energy planning that you requested. Also I have included a paper Jim Kent of FUND presented at our WSCC conference last April which I thought might interest you. I hope you find this information helpful. If you have any questions or would like additional information, please give me a call.

Sincerely,

MAURA L. O'NEILL, Environmental Analyst
Office of Environmental Affairs
